Disc. with Max re RFA 2003:

1. Re studies with pregnant women, we need a policy statement. It will be decided then, how the policy is communicated to the program (whether in RFA, contract etc.).

- Only relates to recruitment of pregnant women to smoke in capt. or epid. study
- prospective

- check children language in contracts

- check with Rich re discussion with Max and D. Keane.

- Hingola: draft

2. Re ETS ^{expt.} exposure of non-smokers, we need to check consistency with company policies

- Ted

- Paula

- Currently addressed by IRB process

Monitoring => Max ✓
